Notes:	
(1)	The 624th and 506th reported to the 185th Ordnance BN until the formation of the Supply & Service BN (Provisional) on or about 1MAR66, which was deactivated shortly after the arrival of the 266th Supply & Service BN 24JUN66.
(2)	Long Binh missions were realigned between the 624th and 506th effective 14MAR66.
(3)	Long Binh Class III was transferred, with some 624th and 506th personnel TDY, to the 64th Quartermaster BN (POL) around mid-MAY66.
(4)	Long Binh Class I and Class II&IV depots were transferred, with associated 506th personnel attached, to 506th Field Depot effective 15AUG66 through 17OCT66, when the depots were transferred to the 277th Supply & Service BN.
(5)	The 569th Quartermaster CO (Composite) and the 75th Supply CO (Heavy Material)(GS) were unusual units, and I never understood their relationship to the 266th Supply and Service BN. Especially weird was the 75th's operation of some DS II&IV.
(6)	Omitted are short-term locations. The 624th and 506th had L&B and/or RT forklifts and operators at Loc Ninh, Minh Thanh, and Song Be, involving DS of 1st ID operations (Birmingham, El Paso I, El Paso II). The 228th had personnel at Bien Hoa involving materiel handling, and at Soui Da and Trai Bi involving DS of 196th LIB and/or 25th ID operations (Attleboro and others).
